Overview

- Company
- Facility
- Carrier
- Update
- Specials

Company

- colozüri.ch is an incorporated company founded in 2007 in order to build and operate datacenters
- Partner companies are Init7, Interway, Nine, NTS, TLN and basis06
- Rackspace is only available from resellers
→ see website for further information
<http://www.colozueri.ch/>

Facility

- Two datacenters on different floors (total space for 300 racks)
- Space to grow for at least 150 more racks or custom cages
- Fire and smoke detection units (VESDA)
- Inergen-gaz fire extinguishing system
- 7x24 access with badge and PIN code
- Redundant power (dual UPS feeds)
- Redundant HVAC on 4th floor
- In-house transformer station with 1 MVA (upgradeable to 2 MVA)
- Backup Diesel generator in preparation
- Individually secured racks
- Observation cameras

Carrier

- colozüri is strictly carrier-neutral and also hosts a SwissIX site
- Available fibre and wavelength carriers
 - Cablecom
 - Gas & Com
 - Swisscom
 - ewz
- IP transit is available from our partners
 - basis06
 - Cogent
 - Colt
 - Init Seven
 - Nine
 - NTS
 - Solnet

Specials

- No interconnection fees (neither setup nor recurring)!
- Cold-aisle containment in preparation on 4th floor for very efficient cooling
- Reserved space for individual customer projects (e.g. cages or private suites)

Update

- New datacenter space on 4th floor in operation since December 2008
- Also in preparation
 - Second access to Gas & Com city ring (new entry)
 - Second access to ewz fiber network (new entry)
 - Second access to Swisscom fiber network (new entry)
