

COMMUNITYRACK.ORG

Community-IX.ch

Update @ SwiNOG33

2018-05-23

What is this?

CommunityRack.org (operational since 2014)

Rackspace for nerds & non-profits (no SLA, no business activity)

Started to separate work from hobby projects, no renumbering in case of employer change, no competition to traditional colo & our employers!

Community-IX.ch (being set up)

IP-Transit for non-profits (not a traditional IX, not a competition to SwissIX)

Sponsors need to set up only 1 cross-connect & BGP-session, no PI/PA-space needed, no abuse handling needed

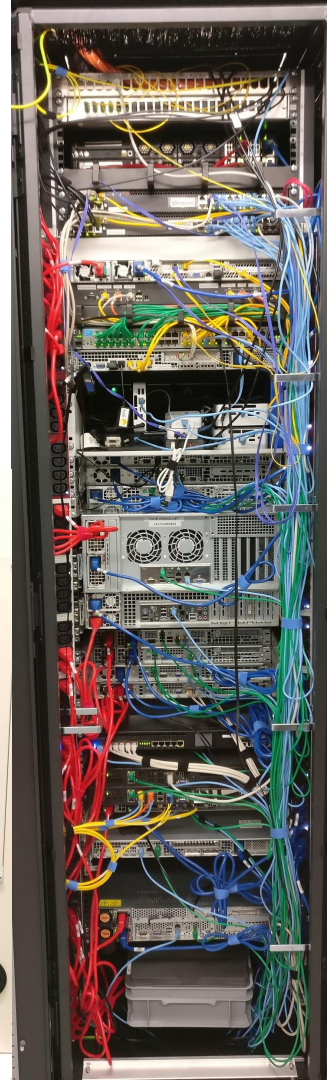

CommunityRack.org

39 members, 21 in rack, 5 in ops-team, 4 in board-team

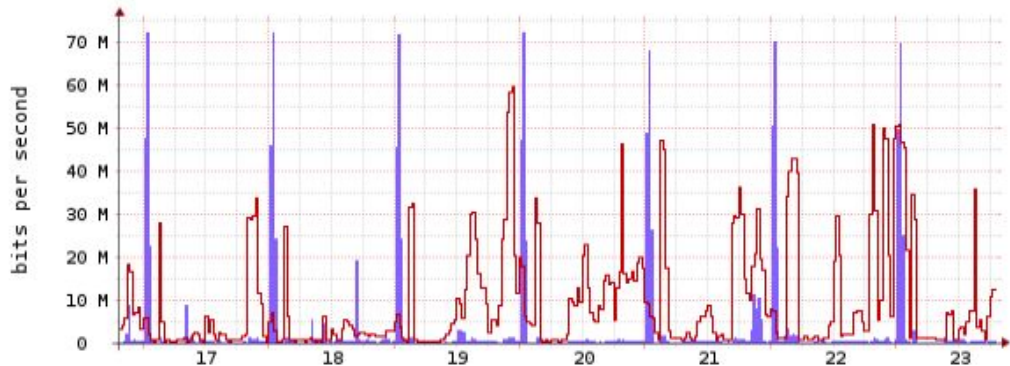

Rack in colozüri.ch is pretty full, ~2U remaining, lots of personal backups, labs & playgrounds

Rack in e-shelter.ch has 35U remaining :)

nine.ch
e-shelter

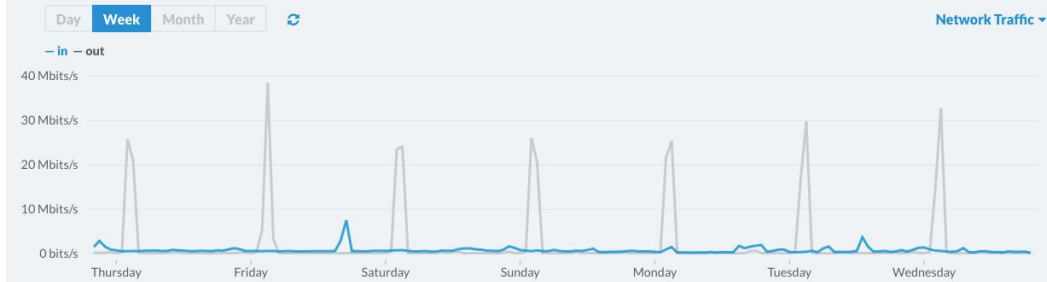

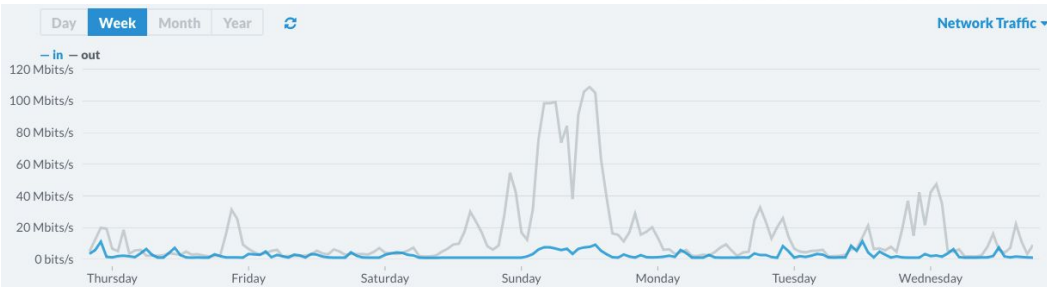

Weekly graph for ASS7118, colozueri

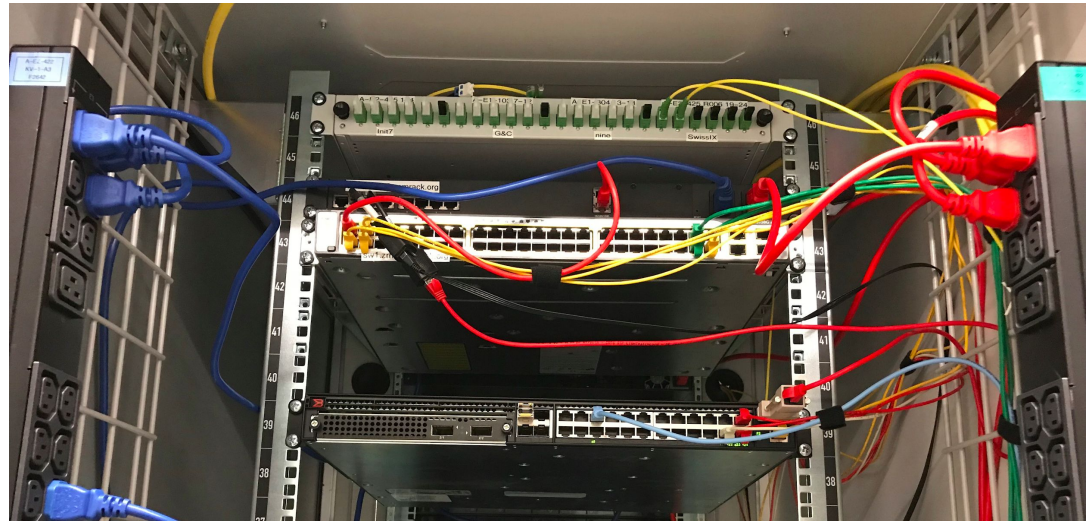

■ Input	Max:	72.18 Mbps	Average:	3.96 Mbps	Current:	744.85 kbps
■ Output	Max:	59.56 Mbps	Average:	9.58 Mbps	Current:	12.72 Mbps

Plotted: 2018-05-23 19:14:03

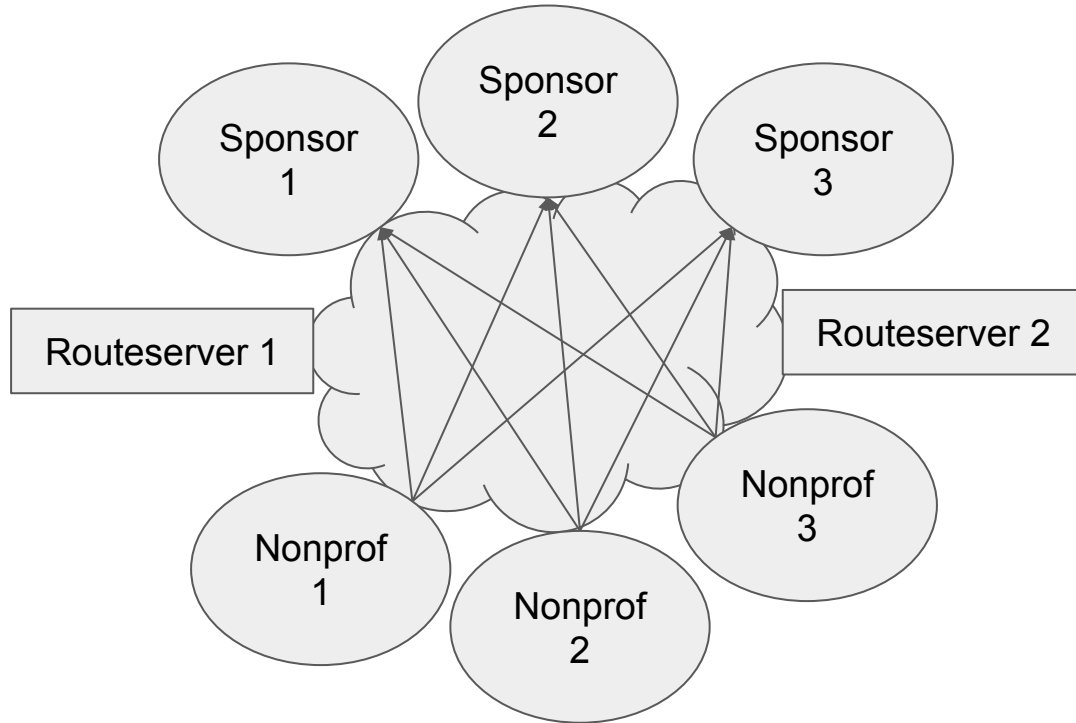

Community-IX.ch

- Sponsors for transit, 10G-optics, wavelength(s) between e-shelter and colozüri wanted - please get in touch!
- If you have a project (or you currently support one) that is non-profit and could benefit from IP-Transit please get in touch!

Community-IX.ch - why an IX?

- 10G+ routing hardware is expensive, 10G switching hardware is cheap
